## EXHIBITION SCHEDULE

### EXHIBITION OFFICIAL OPENING HOURS

In the virtual environment, the exhibition opening hours are indicated to inform delegates of the time at which the booths will be manned. During these hours, if you have decided to activate the chat functionality on your booth, you are expected to be connected to answer the delegates' queries.

The exhibition will however remain accessible to delegates 24h/24h, and the chat function will enable you to have automated messages for the delegates who try to reach out to you when no one is available at the booth. (see [exhibition guidelines](#) for more details on the chat options).

19-21 September	09:00 – 17:00
22-25 September	The exhibition will be open to visitors, but it is not mandatory to man your booth
