

## 2020 ESPEN Virtual Congress

# FROM HOSPITAL-ACQUIRED WEAKNESS TO POST-DISCHARGE RECOVERY IN PATIENTS WITH AND WITHOUT COVID-19: TARGETED NUTRITION TO IMPROVE OUTCOMES

**Saturday, 19 September 2020 at 12:15-13:15 CET (Central European Time)**

### OBJECTIVES:

- Describe the prevalence and impact of hospital acquired weakness in key patient populations.
- Translate evidence on the impact of optimal nutritional care into clinical practice to maximize patient outcomes.
- Illustrate nutritional management strategies to improve outcomes across the patient journey from acute care to post-discharge and recovery.

#### MODERATOR

**CAROLE GLENCORSE**

BSc, RD  
Abbott Scientific and Medical Affairs  
Maidenhead, England,  
United Kingdom

#### PRESENTERS

**DAVID EVANS**  
MD, FACS

OhioHealth Trauma Services and  
Nutrition Support Team  
Columbus, Ohio, USA

**PROF PHILIPP SCHUETZ**  
MD, MPH

Internal Medicine & Emergency Medicine  
Kantonsspital Aarau AG  
Aarau, Switzerland
