

ESPEN 2020 Industry Satellite Symposium

LIVE SESSION

Looking beyond nutritional support: SBS-IF management fit for the real world

Chair: Professor Francisca Joly

Saturday 19 September 2020 17:00–18:30 (CET)

Join our expert panel at this live satellite symposium session, who will discuss treatment goals and challenges in short bowel syndrome with intestinal failure (SBS-IF) management, provide a review of the latest clinical and real-world data use of teduglutide in SBS-IF and discuss best practices for teduglutide in SBS-IF clinical practice. Tune in live at **17:00 CET on 19 September** to hear the thought-provoking discussion and ask your questions to the expert panel.

Programme

Time (CET)	Session	Presenter
17:00–17:05	Welcome and introduction	Francisca Joly
17:05–17:25	Optimising SBS-IF care: Goals of treatment in the current landscape	Palle Bekker Jeppesen
17:25–17:45	Up-to-date evidence: What have we learnt about teduglutide from RCTs and RWE?	Francisca Joly
17:45–18:10	Practical implementation of teduglutide in practice: The who, when and how	Ulrich-Frank Pape
18:10–18:30	Meeting summary and Q&A	Francisca Joly

**Yours Sincerely,
Takeda Global Medical Affairs team**
