

# BD Symposium at ESPEN

**Safety. Independence. Freedom.**

Discover the difference of BD nutrition solutions at home

## The role of aseptic production units in the preparation/manufacture of nutrition solutions

Join us to hear directly from Shakeel Herwitker, the head of manufacturing at the Royal Liverpool and Broadgreen University Hospital NHS trust, who will share insights into their success providing bespoke home nutrition services to their patients.

## Your trusted partner from hospital to home

With holistic solutions that help increase, efficiency and clinical outcomes, BD will help ensure that your healthcare professionals are equipped across every hurdle, so they can support patient freedom from hospital discharge all the way home.

Care to learn more about how BD is already supporting home nutrition services? [Click here](#) to hear from Alison Young, the consultant nurse in nutrition from the Royal Liverpool Hospital speak about why they selected BD as their patients' preferred partner for their home parenteral nutrition services.

## The impact of manufacturing and delivering a dedicated HPN Service

**INSIGHTS** from the Royal Liverpool and Broadgreen University Hospital

**Monday, 13 September 2021**  
**10:00 – 10:30**

The session will be a testimonial followed by a 10-minute Q&A
